EXPERIENCE

Software Engineering Intern | Genpact

Hyderabad | Feb 2024 - Aug 2024

- Completed two major projects utilizing Google Cloud Platform and OpenAI for advanced data processing and pipelining.
- Earned certification in GenAI, NLP & LLMs after rigorous coursework, ranking in the top 2% of the cohort.
- Applied Cluster analysis, Logistical regression on multiple datasets for Data Prediction with an accuracy of 98.3%.
- Completed intensive data analysis training in Python, SQL, and Excel with industry experts; earned certifications in Generative AI and Augmented Intelligence, enhancing analytical capabilities and increasing project efficiency by 40%.

Software Development Engineering Intern | Accelth Technologies Pvt Ltd

Manipal | Jun 2023 - Jul 2023

- Led a team of 4 Web Developers in a fast-paced environment, utilizing the MERN stack to deliver high-quality projects.
- Developed an AI-integrated Hospital Management System using Firebase and React, enhancing human-device interaction and increasing bed utilization by 15%.
- Streamlined backend integration and deployed a drone delivery ATC platform with Geo-Fencing using GoogleMaps API and What3Words API, cutting delivery times by 25%. ([Link to Website](#))

EDUCATION

Stevens Institute of Technology

Masters in Computer Science

CGPA: 3.5

Relevant Coursework: Cloud Computing, Algorithms, Math for ML, Artificial Intelligence, Database Management System

Manipal Institute of Technology

Bachelor of Technology Computer and Communications Engineering with minor in BigData

CGPA: 7.4

Relevant Coursework: Data Analytics, Cyber Security, Networks, Big Data, OOPs, Graph Analytics, Agile Development.

Hoboken, New Jersey

Jan 2025 - Present

Manipal, India

October 2020 - August 2024

SKILLS

Programming Languages:	C, C++, C#, Python, Java, JavaScript, Latex, Shell, GoLang
Libraries/Frameworks:	PostMan, HTML, Typed.js, Tailwind, Streamlit, ReactJs, .NET, Pandas, TensorFlow
Tools / Platforms:	GitHub, Google Cloud Platform, Android Studio, Visual Studio, Xcode, Figma, RapidMiner, AWS, WireShark, Git, Hadoop, Flutter, Excel, Docker, PowerBI, Tableau
Databases:	Firebase, MySQL, PostgreSQL, SQLite, MongoDB

PROJECTS

Credit Default Prediction Model with GUI | [Link](#)

XGBoost, Uvicorn, Streamlit

- Built & tuned Logistic Regression, RandomForest & XGBoost models, boosting ROC-AUC from 0.68 to 0.90 on dataset.
- Delivered a user-friendly Streamlit dashboard that accelerated feature demonstration, improving efficiency by 80%.
- Deployed the model via Uvicorn as a REST API with sub-100ms inference, auto-generated docs, and health checks.

Documents Consolidation using OpenAI | [Link](#)

Python, Flask, OpenAI API

- Developed a Flask application enabling users to upload multiple files and receive a consolidated report for each document cluster. Optimized API calls through deduplication, reducing processing time by 40%.
- Applied chunking to efficiently process files up to 200MB using GPT-4 API, enhancing integration with internal systems.

Revels'23 WebPage | [Link](#)

JavaScript, Tailwind, ReactJS

- Collaborated with a team of developers to build the frontend of the university's cultural fest website, enhancing usability
- Streamlined event operations by developing a web-based ticketing and tracking system that processed 7,000+ sales and delivered real-time attendance insights, achieving 99.9% uptime during peak usage.

POSITION OF RESPONSIBILITY

Apple Developers' Group | General Secretary

Manipal | Jul 22 - Aug 23

- Lead project procurement, financial tracking, budgeting, coordination, & oversee collective outcome of the club.
- Coordinated 7 university wide technical events, handling team management, logistics, and financial oversight.
- Designed and implemented mini-projects from scratch with ReactJS & Tailwind for internal club tools and events.

AWARDS & ACCOMPLISHMENTS

Secured an extraordinary 442nd World Rank in the ArmstrongCTF'22 forensics Competition.

Winner of InnovateFest'22 at MIT, Manipal.

Recognized as the Top Performing Global Intern in Genpact's NextGen Program among 700+ interns.

Co-Founder of the first AR/VR based Major Student Project in MIT, **V.ARISE**

Organized the first Calendar event of Apple Developers' Group, AppLabHackExhibit'23 for MAHE, Manipal.
